# GLP-1 HAIR LOSS + MICRONEEDLING

"A 70-year-old female with GLP-1 related hair loss underwent microneedling (1.5 mm) with NeoGenesis Hair Thickening Serum on April 14, 2025, followed by consistent home use of the NeoGenesis Hair Thickening Serum for 3 1/2 months.

At follow-up on August 1, 2025, magnified evaluation revealed numerous new hairs measuring 4–5 cm in length, indicating active regrowth.

A second treatment was performed due to the positive response."

## ANAGEN EFFLUVIUM (CHEMO)

"I experienced hair loss during chemo. I had extreme thinning and bald spots and imagined it would be months and months before it would fill back in.

I started cold capping and using NeoGenesis Hair Thickening Serum twice a day.

My husband can't believe my hair has grown back so fast, and neither can I. My hair is thicker than before and regaining length. I do not have any thinning or bald spots anymore.

Really happy!“ - MMZ

"I found this balding spot while brushing my hair. I had a lot of stress in my life, and feel it was probably caused by that. I had noticed on occasion that there were spots that were not growing, but not as bad as this one. I started on NeoGenesis Hair Thickening Serum twice a day for 30 days, and then once a day. The bald spot filled in nicely and I'm happy with the results!" - SP

"Coming out of treatment, I didn't feel like myself, especially with hair loss and sensitive skin. Using NeoGenesis consistently helped support my hair regrowth and brought my skin back to life. My brows started filling in again, my hair felt healthier and honestly has never felt stronger and my skin finally felt calm and cared for. It was more than skincare, it was part of getting my confidence back, and something I'll always keep in my routine." - GS

# HAIR LOSS + MICRONEEDLING

"Before starting the NeoGenesis Hair Thickening Serum there was a lot of hair shedding and she has noticed that has decreased. She had no new growth prior to using the products.

I started giving her microneedling treatments every 2 weeks in combination with the Hair Thickening Serum and her hair looks so much healthier. By the fifth month we really started to notice a difference. There was new hair growth everywhere and significant growth at the top of the temples.

By month 7, we saw improvement in thickness, texture and growth. She is using the serum once every other day and has stopped the microneedling. The treatment worked really well for her." - Annkeit Ssharma – Shamin Skin Care

# HAIR LOSS + JET TREATMENTS

"This is my daughter who started her hair journey 1 year ago.

She has had approximately 16 Jet treatments in the past year and has only been using the NeoGenesis Hair Thickening Serum.

We are both blown away by her response, much thicker and her hair has also darkened up naturally.

I wish she had zoomed in on the first photo because her scalp was so bare....especially by her forehead." - SS

# TRACTION ALOPECIA

"PD has traction alopecia which is caused from some hair styles pulling too tight and causing tension on the scalp and inflammation to the hair follicle. It usually starts at the front hairline and can cause the hairline to thin out. I started her on NeoGenesis Hair Thickening Serum twice a day for the first 30 days, then once a day. We started seeing new growth in the first month. By the end of the second month, we noticed some areas of concern were filling in. Each month showed improvement. PD has been happy with the product and results so far. We have been able to get some of her hair loss under control at this time." - Sophia Emmanuel, Crown Worthy Trichology

# HAIR LOSS + MICROCHANNELING

"I started my client with 1 session of ProCell hair serum. Microchanneled at 0.5mm overlapping the entire top of the head. She had significant hair loss due to Covid 1 year ago, with no regrowth.

I didn't see any significant change after 1 month, so I switched her to NeoGenesis Hair Thickening Serum.

I used the same protocol to microchannel product into the scalp. I used 2 ml for the treatment and sent her home with the bottle of Hair Thickening Serum. She applied it at night into damp scalp and massaged in. I have done 4 treatments as of last week. I see her every 2 weeks. These before and after photos are after 2 treatments of NeoGenesis with take home product for 6 weeks. I will see her again next week. Just wanted to show you her progress."

# HAIR LOSS

"My client is 56 years old and starting to notice some hair loss. Each time he combed his hair he noticed some hair falling out. It has mostly fallen out in the front and back, so he started combing over to hide the thinning spots.

I started him on NeoGenesis Hair Thickening Serum and within 6 weeks his hair was stronger, he had less hair loss and it looked healthier.

As the months went by, he noticed more substance and his hair is getting fuller.

He is really happy and surprised with the results."

- Annkeit Ssharma - Shamin Skin Care

Hair Thickening Serum

# FRONTAL FIBROSING ALOPECIA

“AE’s hair loss has progressively gotten worse over time. Stress has most likely been a factor for the hair loss and getting older may also play a part in it. Her hair loss and thinning may be hereditary, as well. She has some scar tissue on the scalp from relaxing the hair, so some of the follicles are closed and she has some itchiness.

I started her on a treatment plan that included NeoGenesis Hair Thickening Serum, Laser Comb Therapy and supplements.

We started seeing new growth and less shedding within the first month. She started getting compliments after 2 months. Over time her hair has gotten healthier to the touch, and does not feel dry and brittle anymore. It has more density, and the rate of new growth has been steady. She is really pleased with the changes she sees in her hair growth.” – Sophia Emmanuel, Crown Worthy Trichology

# LASH LOSS (CHEMOTHERAPY)

"Coming out of chemo treatment, I didn't feel like myself, especially with hair loss and sensitive skin.

Using NeoGenesis consistently helped support my hair regrowth and brought my skin back to life.

My brows and lashes started filling in again, my hair felt healthier and honestly has never felt stronger and my skin finally felt calm and cared for.

It was more than skincare, it was part of getting my confidence back, and something I'll always keep in my routine." - GS

# LASH LOSS

"I've used at least 3 other eye lash serums in the past and none had been as easy to use or as effective as NeoGenesis.

I saw a difference in the thickness of my eyelashes within 1 and a half weeks!

My friends and family started noticing the difference as well and I've received so many compliments on them. They, too, are now trying NeoLash eye lash serum themselves." - JA

# BROW + LASH LOSS (CHEMOTHERAPY)

"I lost my eyelashes and eyebrows during chemotherapy treatments.

I started using NeoLash and NeoBrow and could not believe how fast they are coming back. I expected more to fall out. I did end up losing all my eyelashes, but they are growing back quickly.

My eyebrows thinned but never fully fell out. I don't wear makeup a whole lot, but I am able to wear mascara now." - MMZ
