

Who We Are

NeoGenesis is in the business of providing products that enhance people's lives. With a core emphasis on serving oncology patients, our products are completely safe, yet highly effective for everyone.

NeoGenesis hair care products return to the adult those nutrients once created in abundance during our youth that slow down as we age. We deliver those nutrients in a way that works within your hair's normal growth cycle.

Talk to your professional about our host of different programs to help you achieve that healthy, radiant look and feel you so deserve.

Learn more about our wonderful line of lash, brow and skincare products through your professional or visit the NeoGenesis website: neogenesis.com.

S²RM®

S²RM® is a patent-pending exosome-based system using the most advanced science. Explore the science behind this next generation of stem cell technology: neogenesis.com/science.

COMMUNITY

We invite you to join our expanding network of communities that will focus on serving the oncology patient and their families. Four out of ten people in the U.S. have cancer. There is much we can do to reduce the pain and improve the quality of life for those going through treatments. Join our network of people that care about people through our website: neogenesis.com/community.

GENESIS

Next Generation Stem Cell Science™

Thicken Your Hair With Stem Cell-Based Technology

NeoGenesis Hair Thickening Serum is the first to combine the benefits of multiple adult stem cell types (S²RM[®]) technology with potent antioxidants, peptides, and other innovative stem cell ingredients to nourish the scalp and hair follicles.

Stem Cell-Based Hair Thickening Serum for Beautiful, Healthy Hair

For the millions who are beginning to experience thinning hair or loss of hair, Hair Thickening Serum is a highly effective option that makes your hair look and feel healthier, fuller, and more vibrant.

Simply apply NeoGenesis serum to your scalp, massage in, and allow to dry for two minutes on a daily basis.

REAL PATIENT RESULTS

Hair begins to recondition after 8 weeks of treatment. A maintenance program of 3-4 times per year is recommended to maintain healthy, beautiful hair.
