C02 LASER + PRP

PROFESSIONAL FEEDBACK:

"Patient used Recovery and Intensive Moisturizer twice each day. These products are of significant benefit post procedure. They reduce down time and improve the patient's response to the procedure."

PATIENT FEEDBACK:

"As a clinic director, I wanted to try NeoGenesis on myself first. I received both a PRP and a CO2 Laser treatment. I am amazed at what Recovery and Intensive Moisturizer did to reduce my downtime and discomfort post procedure." – BS

NEOGENESIS PRODUCTS USED:

Recovery, Intensive Moisturizer

C02 LASER

PROFESSIONAL FEEDBACK:

"Client is a nurse for Ideal Image. She asked to go very aggressive on the treatment on a level from 1-20, so we did a 20. She used Moisturizing Mist and Cleanser for 4 days. She used the Recovery for 1-4 days post care only for the face. The neck and décolleté only used Recovery at time of treatment."

- Jacqueline Ramirez, New Beginnings Tattoo Removal

CLIENT FEEDBACK:

"I have tried out a variety of treatments and this was the most aggressive one. I was concerned about the down time and my comfort level. I didn't miss any work and the Recovery serum had a cooling effect. I am very impressed by the results.

I used the Recovery on my face only and you can see how well it reduced the redness by the 2nd day, compared to the neck that I didn't use the Recovery on." – P

NEOGENESIS PRODUCTS USED:

Cleanser, Moisturizing Mist, Recovery

DAY 0

DAY 7

LASER RESURFACING

"Following an aggressive laser resurfacing treatment, the patient experienced notable redness, inflammation, and discomfort by day 2.

With the NeoGenesis post-laser protocol, the skin calmed quickly and healed efficiently.

By day 7, the skin was rehabilitated, with visibly reduced inflammation and a smooth, healthy appearance.

This protocol helped minimize downtime and supported a faster, more comfortable recovery after an intensive procedure."

- Dr. Martha Viera

NEOGENESIS PRODUCTS USED:

Cleanser, Recovery, Barrier Renewal Cream, MB-2

LASER RESURFACING

"Following an aggressive laser resurfacing treatment, the patient experienced significant redness and inflammation in the first few day's post-procedure.

With consistent use of the NeoGenesis post-laser protocol, visible improvement was noted quickly.

By day 7 the skin was rehabilitated, and by day 14 the skin looked significantly improved, calmer, and healthier in appearance, with continued healing and refinement."

- Dr. Martha Viera

NEOGENESIS PRODUCTS USED:

Cleanser, Recovery, Barrier Renewal Cream, MB-2

DAY 0

DAY 7

LASER RESURFACING

"On Day 1, the patient experienced a significant skin reaction related to the topical numbing cream applied prior to treatment, rather than the laser itself.

By Day 7, the skin was fully restored, calm, and healthy in appearance.

By the following week, the skin had recovered well enough to safely proceed with another treatment."

- Dr. Martha Viera

NEOGENESIS PRODUCTS USED:

Cleanser, Recovery, Barrier Renewal Cream, MB-2

FRAXEL LASER

"The first photo is one day after Fraxel Laser treatment using Dermaceutic and K Ceytic.

The second photo is one day after Fraxel Laser treatment using NeoGenesis products: Recovery, Moisturizing Mist and Intensive Moisturizer."

NEOGENESIS PRODUCTS USED:

Recovery, Moisturizing Mist, Intensive Moisturizer

FRAXEL LASER SCAR

My year old fraxel laser scar disappeared after using Recovery for only 30 days! I thought I would be using makeup to hide it for the rest of my life. Amazing! I'm so happy to have found NeoGenesis!" – BZ

Recovery

LASER SCAR

“My daughter had a good result with the Recovery.

She had a procedure to remove her micro-pigmented brows and the procedure did a lot of damage to the skin. She subsequently had it removed by laser but had some scarring from the initial procedure.

After about one month use of the Recovery, she had her brows re-done and no one would ever know that she had any scarring at all.” – NM

IPL LASER

7 Days Post IPL Laser Burn
using a competitive brand

9 Days Post IPL Laser Burn
2 days on Recovery

14 Days Post IPL Laser Burn
7 days on Recovery

PROFESSIONAL FEEDBACK:

"I observed 1st and 2nd degree burns after treatment with IPL Laser by her Dermatologist. These IPL burns were sustained from a treatment by her Dermatologist 7 days earlier. The worst areas were oozing and quite inflamed. I got her permission to use NeoGenesis Recovery on the burn area. 12 hours after first application, pain subsided substantially. She was shocked that the NeoGenesis Recovery had worked so fast and stated that she's never seen anything like it." - Cathy Estrella, South County MedSpa

PATIENT FEEDBACK:

"I'm a licensed Pharmacist and work with and used other skin care products in the past but my experience has left me in shock after personally seeing how NeoGenesis Recovery worked on my IPL Laser Burns. I honestly have never seen anything like it, it worked so fast!" - B

FIBROBLAST

"One Plasma Fibroblast treatment was done on the face. The "after" photo is two weeks after the treatment was performed. Client used Recovery serum twice daily after the treatment to speed the healing process and improve the results."

- Gloria Goodman, GG Skin Therapy

NEOGENESIS PRODUCTS USED:

Recovery

FIBROBLAST

"Using NeoGenesis Recovery serum allows the skin to recover much faster after a Fibroblast procedure.

Because it is important for the skin to dry-heal after Fibroblast, Recovery is the only product I allow my clients to use on their skin post procedure."

– Gloria Goodman, GG Skin Therapy

Recovery

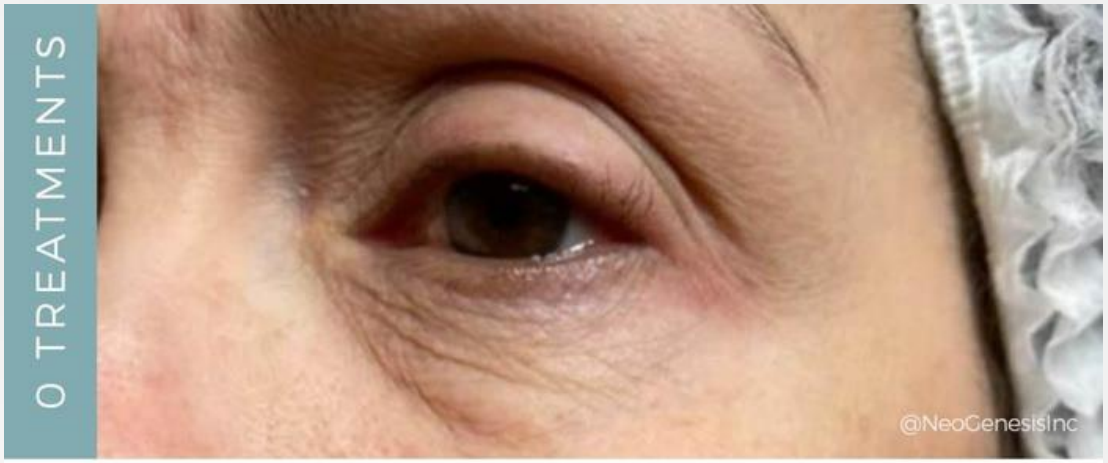

FIBROBLAST + AGING + HYPERPIGMENTATION

"I had fibroblast done a few months before these photos were taken and it left scars on my neck. Since starting the products, I noticed a huge difference in my texture, especially where I had the fibroblast scarring on my neck and on the bottom of my cheeks. I'm not feeling the bumps from it anymore. And not only am I not feeling the bumps, but my overall texture of my skin is very smooth and soft. It just feels very supple.

My pigmentation is definitely getting better too, especially the pigmentation in the scarring around my chin area from the fibroblast. I was wearing makeup on a daily basis because I was trying to hide the scarring, but I'm feeling better just wearing sunscreen and not taking on any makeup. I'm feeling definitely more confident in my skin." - Sarah F.

JET PLASMA

”I wanted to share these results. This is my sister. We have done five jet plasma treatments so far and we are going to do three more.

She has been faithful with using the NeoGenesis products: Recovery, Eye Serum, Cleanser, and Intensive Moisturizer.

She is so thrilled so far.” – Rebecca Alvarez

MICRONEEDLING

"In this clinical trial with 34 subject participants, the subjects used NeoGenesis Recovery serum 3 times daily for 1 week and then twice daily for 3 weeks after Microneedling on one side of their face and Microneedling with vehicle application (no stem cell factors) on the other side of their face.

This subject was assessed at 24-36 hours, 7 days and 30 days after microneedling procedure. What we found was that the erythema levels went down much faster on the side where Recovery serum was used.

91% of clinical participants had a faster and better improvement using Recovery serum. Skin texture also was improved by 41.2%. - Dr. Raja Sivamani

MICRONEEDLING

“I am a licensed Esthetician who has become a big believer in Recovery for many of my treatments. I saw a client with over-stimulated skin due to her home care protocol of too many actives at one time. During her first session, I could barely perform the treatment as her skin reacted with large red welts and some pinpoint bleeding at a very shallow needle depth. She remained red for over two days. The redness should have dissipated in a few hours.

Fast forward one month to the second treatment. I used Recovery prior to the micro-needling and immediately after. The difference was remarkable! The first photo shows my client after her second treatment. The second photo shows her in less than 20 minutes post treatment! This is taken in natural light with absolutely no makeup or filters. I am a believer and Recovery will definitely be in my protocol for micro-needling.”

MICRONEEDLING

"Our client struggled with acne as a teenager. It slowed down in his 20's and now he is in his 30's. He expressed that he has always been insecure about acne and his skin, and had been using ProActive.

To begin his treatment, I started him off with a facial and he started using Recovery serum. Within a week, he already noticed a difference in his skin. It was not as red and his wrinkles have gone down (for the past few years he started to notice wrinkles and bags under eyes).

2 months later, we began microneedling treatments, using NeoGenesis products. He likes the progress a lot. One thing he loves the most about the NeoGenesis products is that he has less wrinkles now, he breaks out less, his pore size is improving and the texture of his skin feels soft."

– Vanexa Yang, V Beauty House

NEOGENESIS PRODUCTS USED:

Cleanser, Recovery, Light Moisturizer, Barrier Renewal Cream, Moisturizing Mist

“I was finally able to get my Microneedling done on Friday. It was a night and day difference for recovery for me.

The first time I had Microneedling I felt like I had to reapply serums multiple times a day and the redness lasted a good 3 to 4 days.

This time with the NeoGenesis, my skin stayed moisturized and I didn’t need to apply anything extra between my morning and night applications of the Recovery serum and Barrier Renewal Cream.

My facial redness was pretty much gone after 24 hours, but my neck was still a little red for a day.

I unfortunately wasn’t able to capture any good photos this time though.

Thanks for the case study info!” - AW

CHEMICAL PEEL

"Here are some photos that I have taken with my client, that we are treating for hyperpigmentation.

She has had Microneedling treatment with NeoGenesis Recovery serum on May 12th and a chemical peel on May 26th. NeoGenesis Recovery was used during treatment and in her at-home care routine, as well!

The after photo was taken on June 23rd before we did her 2nd ProCell treatment with NeoGenesis Recovery."

“As my initial pictures indicate, I had a reaction to a peel.

I applied Recovery serum over half of my neck. The second set of pictures shows my neck roughly 24 hours later.

The side that I put Recovery on completely calmed down. The side I did not apply Recovery to blistered and was very painful.

As a licensed Aesthetician I highly recommend using Recovery post chemical peel.” – SY

CHEMICAL PEEL

"I have been using the NeoGenesis product, Recovery, for a chemical burn and side effects from radiation. Prior to radiation (in late July), I had a plastic surgeon remove the scar tissue in my breast resulting from a lumpectomy. Unfortunately, I simultaneously opted to include an elective procedure of a laser and chemical peel, which resulted in severe blistering and burning. Recovery truly relieved my discomfort. At this time there is almost no scarring.

In mid-August, I started radiation. I used Recovery daily and surprised all of the technologists and doctors (especially since I have Lupus), as I did not peel, blister, or scar. My skin darkened for a week or two, and that has also dissipated. I am still using Recovery to help with the darkness from radiation. Your product Recovery saved the day. I hope other cancer patients have the opportunity to use your skincare products to save their skin." – DW

MICROCURRENT

"I incorporated NeoGenesis products alongside microcurrent therapy, and the results have been nothing short of extraordinary. The combination has significantly improved my skin's texture and tone.

The NeoGenesis products provide hydration and nourishment, while the microcurrent therapy enhances cellular rejuvenation, resulting in a visibly more youthful appearance after only 3 treatments.

I've noticed a remarkable reduction in fine lines and wrinkles, as well as, what I can only describe as a "surgery free facelift".

I am completely amazed!! I highly recommend this combination for anyone seeking an effective and transformative skincare solution." – KO

RADIO FREQUENCY SKIN TIGHTENING SCAR

"I am a 54-year-old woman who lives in sunny Florida. I have spent many dollars in plastic surgery procedures since 1998.

I received 3rd degree burns from the radio frequency skin tightening procedure at a skin spa in Miami. I had vertical scars that were deep. After efforts to use filler and scar removal I was desperate to find a solution! My friend recommended NeoGenesis so I called to inquire. They put me through to a licensed Esthetician with the company, who answered all of my questions and explain the benefits of stem cell technology.

After several months, the scars are nearly invisible; my skin is firmer and has a healthy glow. I found my answer after thousands of dollars and major issues with plastic surgery! Thank you! You are the best! I am loving this body cream!!!" – PP

LASER BURN

"My client, Cooper had laser treatment in April of 2021, to remove extended capillaries. In my opinion, from knowing my client's barrier, the laser was high for minor area.

He's in sales for Orlando Magic and always wants to look his best. I cautioned him before doing the laser removal treatment. He went ahead. Results were some minor scarring.

Since he's a Fitzpatrick 2/3, his scarring is very visible. He came in on April 26, 2021. We did a Hydration Facial. I gave him Recovery serum to use on the area. Here's the before & after photos. The first was taken before he came in for a facial. The second is from May 9, 2021. I love the Recovery product!!"
