ROSACEA

“I've struggled with rosacea and facial redness for 40+ years. Over time, I have tried countless skincare products, but nothing ever made a lasting difference. I had simply accepted that I would always have a red face.

Since starting the NeoGenesis products, the difference has been amazing. My skin is calmer, softer, and more hydrated than it has been in years. I didn't realize how dry, rough, and irritated my skin had become until it finally started feeling healthy again.

During a stressful period when I wasn't consistent with my routine, my redness began to return, but once I got back on the products, my skin quickly improved again.

The biggest change has been my confidence. I no longer feel like I need heavy makeup to cover the redness, and I finally feel comfortable in my own skin. It's truly been life-changing, and I would absolutely recommend NeoGenesis to anyone struggling with rosacea or sensitive skin.” - RR

ROSACEA

"I loved how my skin looked and felt after the first treatment with NeoGenesis stem cell molecule skincare products along with microcurrent.

The redness diminished greatly and it felt softer and smoother.

I'm excited to have a home care protocol that will continue to soothe my skin." – JW

ROSACEA

"I tried different products and they did not work. It's been a tremendous improvement using the NeoGenesis products versus what I had used before.

It was a short while before all of a sudden I could see all the improvement with the blemishes and the redness.

Within a two week window, it was a drastic improvement." - MR

PERMANENT DIFFUSED REDNESS

"My client is 48 years old and has had permanent diffused redness (rosacea) for over 5 years. She has been having microcurrent facials with me for 1 year.

She has been using Recovery serum with her normal skincare for 2 months now. Very good difference so far...

Previously we did 10 Omnilux LED sessions with red and near infra-red but these didn't make any difference to her neck.

Using Recovery on this area is the best result we've had."

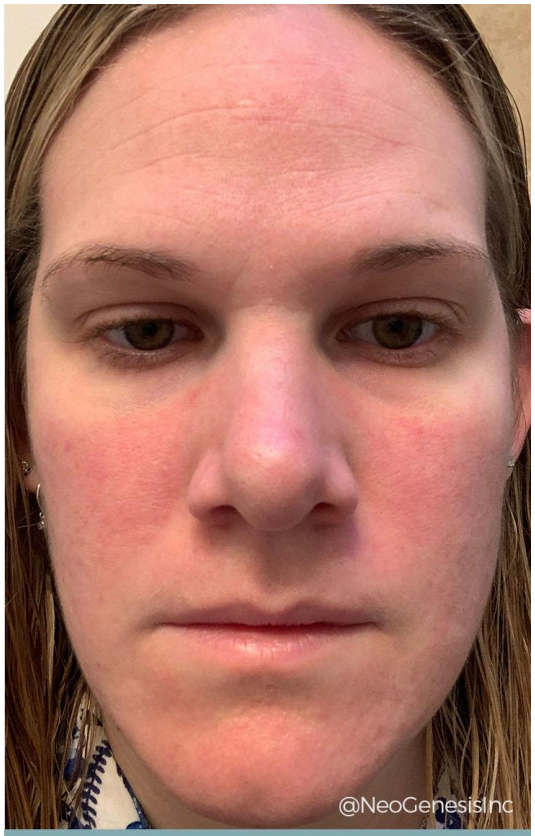

- Doreen Chin Ling - Bellessence

ROSACEA

"KM has had skin issues for years and when the pandemic started, her skin took a turn for the worst. Her skin is super sensitive and wearing a mask has not helped. Being stressed and environmental issues have contributed to her skin breaking out. The texture of her skin was really rough and bumpy and her cheeks were inflamed and red.

After consistent usage of NeoGenesis products, KM's skin has improved tremendously. Her skin is now soft and smooth, the redness is now gone, and the outbreaks have diminished significantly.

Recovery serum, Mandelic Acid 8% and the Barrier Renewal Cream has really cleared her skin. We are thrilled! This is truly a great example of what stem cell molecules can do for the skin."

ROSACEA

"This client booked an appointment and wanted to address her redness (rosacea), enlarged pores, some age spots (hyperpigmentation), as well as, fine lines and wrinkles. The redness had bothered her for years, but nothing she tried helped.

Once started on the NeoGenesis products, her skin started to improve, even in the very dry winter. The redness calmed down, pore size improved, and her hyperpigmentation decreased.

She likes the way the skin care products make her skin feel and commented on how well her makeup goes on with NeoGenesis products.

When she does her skincare routine, she is amazed that the redness is improved."

– Mary Smith – M&M Studio

NEOGENESIS PRODUCTS USED:

Cleanser, Moisturizing Mist, Recovery, Booster, Eye Serum, Intensive Moisturizer, Barrier Renewal Cream

ROSACEA

JM has broken capillaries and redness (rosacea) in her cheeks, as well as in the top of her T-zone. When using other products, JM felt they left her face very oily, but with NeoGenesis she feels like her skin absorbs them. Her skin does not feel greasy, but has a bright complexion. She does not need makeup/powder/foundation since her skin looks so good.

She has been singing the praises of NeoGenesis from the rooftops, absolutely love the products and is recommending them to everyone.

JM has stuck to her protocol perfectly, and checks in pretty much every day, wanting to make sure she uses the products as intended. She has already seen tremendous results – skin looks and feels incredibly healthy. This has been a game changer for her. She Loves Loves LOVES the products!"

DAY 0

8 MONTHS

ROSACEA

"Client has rosacea and her cheeks are always red. Her skin feels flushed and hot all the time. She occasionally has the breakouts associated with Rosacea. Even the water used when cleansing will sting her skin a bit. She has broken capillaries which are becoming worse over time. Her skin feels very dry, was peeling and she had cracked lips.

She started using NeoGenesis products and the flushing has gone down significantly. Her cheeks are cool to the touch when she puts the products on. Her lips are no longer cracking. The adult acne has almost vanished (she would get acne every few weeks).

She loves how the moisturizer and mist are calming her skin."

NEOGENESIS PRODUCTS USED:

Booster, Barrier Renewal Cream, Moisturizing Mist

ROSACEA

"I have rosacea. I started going to Maureen, owner of Skincare Studio, as I wanted to just to keep the redness at bay and keep my skin hydrated.

I hit 40 and the rosacea flared up and I'm slowly learning different triggers.

Maureen introduced me to the NeoGenesis products. The serums feel like they have created a good external barrier and made my skin feel more "plump".

My skin is not a huge concern for me anymore. I can go out in public without being worried about how my skin looks.

The products have brought a level on consistency I have not seen in long while. My skin is smooth and the texture has improved." – AL

NEOGENESIS PRODUCTS USED:

Cleanser, Skin Serum, Booster, Moisturizing Mist, Barrier Renewal Cream

ROSACEA

“This client started using NeoGenesis products as she was looking for a skin care routine for age management, as well as, address redness and eczema. Wrinkles were her main focus, especially around the eyes and between her eyebrows.

After starting a consistent routine, the texture of her skin now looks smoother, feels firmer and the redness has drastically decreased. The lines around her mouth and eyes have also decreased.

The Recovery serum and Barrier Renewal Cream really helped the eczema she had on her leg. She feels great using the products and has had compliments that her skin is glowing.” – LR

NEOGENESIS PRODUCTS USED:

Cleanser, Booster, Recovery, Eye Serum, Intensive Moisturizer, Barrier Renewal Cream, Enzyme Cream Mask

ROSACEA + AGING SKIN + ECZEMA

"I have always taken good care of my skin. I tried a small size Barrier Renewal Cream I received from Christine Byer Esthetics and LOVED it. I could feel the difference in my skin, so decided to purchase the Eye Serum. I am now using Recovery, Intensive Moisturizer and the Enzyme Cream Mask too.

I like the ingredients in the products. My skin has been great and I love using the products.

I have had issues in the past with redness and flaking skin in the winter, but not since using the products. My pores are getting smaller, my skin feels firmer in the cheek/jaw area, and my skin feels very moisturized and dewy. The tone is looking better and the pigmentation spots are lightening.

I also have not had any rashes either (which I used to get)." – LH

NEOGENESIS PRODUCTS USED:

Recovery, Skin Serum, Eye Serum, Intensive Moisturizer, Barrier Renewal Cream, Enzyme Cream Mask

ROSACEA

"I've found this serum to be highly effective for my skin. I typically experience a lot of redness, but I noticed a visible reduction almost immediately after the first application.

I've tested several other vitamin C serums in the past, but none have delivered the same level of results as this one.

Since incorporating it into my morning routine, I've seen improvement not only in calming redness, but also boosting hydration. The texture of this serum is smooth, and it applies nicely.

Hoping to keep this serum in my daily skin care routine." - M

Vibrant C Serum

SEBORRHEIC DERMATITIS + ROSACEA

"Client has chronic issues with seborrheic dermatitis and rosacea. Her triggers include stress and certain types of food. Her skin develops pustules and areas of redness and becomes flaky and itchy.

She is now using the Recovery serum when the itch gets really bad and it relieves it. She loves the Barrier Renewal Cream, as it is soothing and really helps with the dry skin." – LK
